

ZENO

FLEXIBLE ENTERTAINMENT

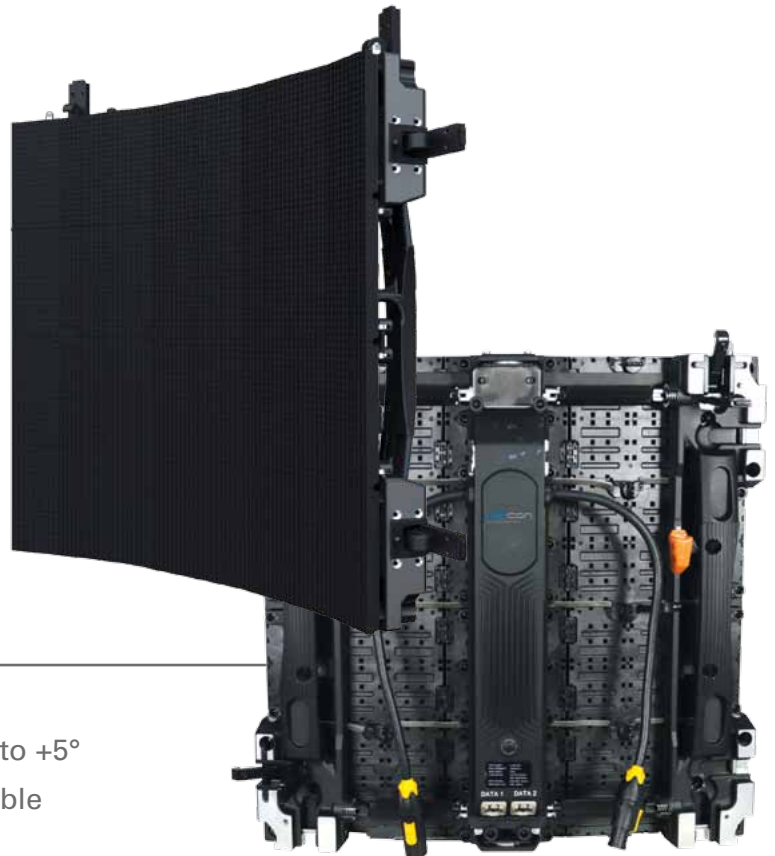

ZENO

The Flexible Wave Display

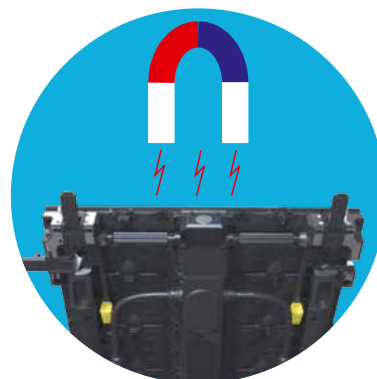

The ZENO display is the perfect choice for temporary wave screen applications. Available with a pixel pitch of only 3.9 mm or 6.2 mm and curvable $\pm 5^\circ$ in five steps, the ZENO display sets new high quality standards in the event sector.

The ZENO display has a sophisticated quick connector system that is supported by magnets during assembly and disassembly, and holds the module in the aligned position for a comfortable one-person handling.

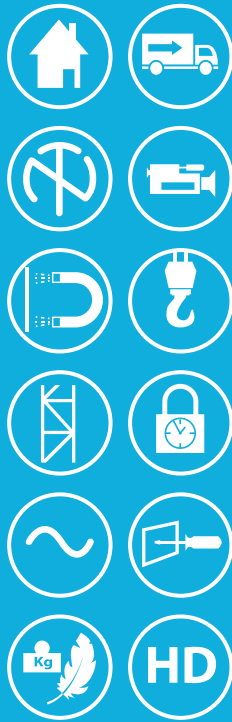

Features

- ⇒ Flexible curvable LED modules from -5° up to $+5^\circ$
- ⇒ Magnetic connection assistant for comfortable setup of the screen
- ⇒ Slim & light
- ⇒ High contrast
- ⇒ SMD blackface LEDs
- ⇒ Easy and fast exchange of power and receiving unit

LED display made by LEDCON

Customer-focused project management, uncompromising quality of products, as well as overall professional service entitle LEDCON systems to one of the leading producers of LED systems.

In recent years a powerful set of enterprises from development to sales has grown on the 3500 m² company site. This cooperation ensures an extraordinary flexibility thus enabling even highly customized solutions.

You plan an Out-Of-Home-Display, a Digital-Signage-Screen or an information banner at your point of sale - we manage any environment and purpose of messages via LED systems precisely shaped to your individual concepts and needs. A globally spread network of providers sets LEDCON into a position to select the best suited components for any imaginable LED display project and precisely shape according to your imaginations.

LEDCON accompanies your project from its first ideas to setting it into operation. No time-consuming coordination of scattered branches for you - one of our skilled and

experienced project managers guides you along throughout the project as your single, personal addressee.

Our support concept comprises assistance in visualisation matters, CAD based design, calculation, matters of statics, sketches of details and of course in the final installation and setting into operation.

If required we additionally support you in matters of administrative permission or composition of relevant project data.
