

eye FRAME

Bespoke Concepts

eyeFrame

The Highlight of your Presentation

The eyeFrame was constructed for the requirements of miscellaneous uses in the indoor area. With a pixel pitch of 2.5 mm and a size of 1.94 x 0.58 meters it stands out with a high-quality display-effect.

The multiple installation options, whether free standing on a stand, hanging or mounted on the wall, as single or multi-screen, enable the optimal utilization for any type of advertising. The easy handling, the ultra-thin construction and the high resolution make their performance outstanding.

Further configurations are not needed, the preinstalled software and the internal memory enable the easy input of content via network or USB.

Features

- ⇒ Pixel pitch of 2.5 mm
- ⇒ Easy handling
- ⇒ Ultra-thin
- ⇒ Lightweight
- ⇒ Low power consumption
- ⇒ High contrast
- ⇒ Service-door at the rear
- ⇒ Installable freestanding or permanently mounted

Details

	eyeFrame
Optical System	
Pixel Pitch	2.571 mm
LED Type	SMD 2121
Resolution	756 x 224
Brightness	1000 cd/m ²
Color Depth	16 bit
Module Dimensions	
Dimensions in mm	194 x 58
Weight per Module	35 kg
LED-Display	
IP Rating	IP 40
Horizontal Viewing Angle	160°
Vertical Viewing Angle	160°
Refresh Rate	1000 Hz
Power Consumption max./m ²	612 W
Power Consumption ø/m ²	228 W

LED display made by LEDCON

Customer-focused project management, uncompromising quality of products, as well as overall professional service entitle LEDCON systems to one of the leading producers of LED systems.

In recent years a powerful set of enterprises from development to sales has grown on the 3500 m² company site. This cooperation ensures an extraordinary flexibility thus enabling even highly customized solutions.

You plan an Out-Of-Home-Display, a Digital-Signage-Screen or an information banner at your point of sale - we manage any environment and purpose of messages via LED systems precisely shaped to your individual concepts and needs. A globally spread network of providers sets LEDCON into a position to select the best suited components for any imaginable LED display project and precisely shape according to your imaginations.

LEDCON accompanies your project from its first ideas to setting it into operation. No time-consuming coordination of scattered branches for you - one of our skilled and

experienced project managers guides you along throughout the project as your single, personal addressee.

Our support concept comprises assistance in visualisation matters, CAD based design, calculation, matters of statics, sketches of details and of course in the final installation and setting into operation.

If required we additionally support you in matters of administrative permission or composition of relevant project data.
